WILLE: This lovely Sabbath after sundown I situate my corporcal frame, inspired by surrounding influences, to scribble a few parrellels to you, in reply to that magniferously eloquential epistle we had the bonorability to receive from you sometime previous. Now as I write, the lonesome backing of the suck-egg hounds greet my aricular appendages in harmonic discord with the shrill squeaking of the myriads of froggycules, whose songs are well-chorused by the hourse croaking of their green sires, wafted by the oriental zephyrs, and loaded with odorific miasma, which arise in thick profusion from the mounds of mortifying vegetation, which fill the eastern mars hadjacent to our pleasant

Inspired by such scenes, sounds and scents, endowed by a genius transcendently eloquent, I will now inform you, that mentally and physically, all of us are beatifically blessed, As for our corporeal condition, we are teast. ing upon the last extracts of Lord Bacon, with plenty of bread and ququentum Boeis. And now, as it is time to retire to my somnambulic couch, and this production has somewhat exhausted me, I must draw my letter to a close by requesting you to return amicable regards to each one in the concatenation of our consanguinity. Yours,

. We have received a telegram informing us that after performing this prodigious literary effort, the writer swoned away. ***

The New York company formed for promoting colonization and commerce in Central America have lately obtained from the New York Assembly a very liberal charter. The capital of the company is \$300,000. They have held a preliminary meeting, and are soon to be organized. They have already established a small colony on the bay of Fonseca, a very commanding situation for trade. It is by such agencies that Central America is to be regenerated and Americanized

The State of Illinois is said to contain the most extensive coal deposits of any country of equal extent on the globe. It is more than is contained in all Europe. Nearly 50,000 square miles of surface rests upon basins of coal, at depths convenient for profitable mining, and very often coal is found at the surface, and is obtained by stripping or casting off the layer of soil above.

Dr. J. Williams, Chemist and Pharamaceutist, after Johnston, England, and observing the nature of the disease in all its stages, during a sejourn in the southern and western portions of the United States, where it prevails to a greater extent than elsewhere, procure from South America, certain roots and herbs, from which he prepared an "Elixir," which, after eighteen years' use in private practice, has proved itself more efficacious in the cure of Dyspepsy, than any medicine that has ever been prepared in any age or any clime

or the same purpose.

Having submitted it, with an explanation of its comnents, to a number of Physicians of Philadelphia, a ong whom were the late Drs. Joseph Hartshorne and To an examination of which we would call the atten-tion of merchants buying in this city. J. C. Morton, it has received their entire approval, and many of the Medical Faculty are now not only prescri-bing it for their patients, but are using it themselves personally, and in their families. As a tonic, it is une alled, and its properties are of so invigorating a na are, that it is given with perfect safety and success to the most tender infants.

The "Elixir" is very gradual, but certain in its action upon the organs of digestion, the increased secretions of the liver, pancreas and macus membrane of the stomach, and requires that only one dose be taken in twenty four hours; for confirmed Dyspepsy, can only be cured by gradually restoring the organs of diges tion to a healthy state. The great success met with in curing the most aggravated cases of Dyspepsy, accom-panied sometimes with a high grade of hypochondriasis, has established the most unbounded confidence in the curative properties of this "Elixir;" in corrobora-tion of which, read the following testimonials:—

ATTESTATION.—We having used Williams' "Anti-Dyspeptic Elixir" with the most perfect satisfaction and Success, take great pleasure in recommending it to all persons suffering with Dyspetsy, as we are fully con-vinced of its most estimable qualities in restoring the digestive powers, removing all pains and uneasiness and imparting a healthy tone to the stomach. and imparting a healthy tone to the stemach.

Testimony of H. N. Sperry, who was abstracted as t BURABLE AND GIVEN UP TO DIE. Dr. J. Williams Dear Syr. For fitteen years previous to 1854, I suffered so much from Dyspepey, that became completely prostrated, both in mind and body, and at length became so weakened I could not attend to my business, and was sinking into a decline, and it was believed I never could recover; medical aid was procured for me, and every means resorted to without any relief, till I was advised to use your "Elixir," and any relief, this I was advised to use your "Elixir," and from the time I began taking it I gradually improved till I was completely restored to health. The dreadful sufferings I endured from Dyspepsy I cannot describe; but I am confident that without the use of your "Elix-ir," I should be in my grave. I assert that I solemn-ly believe your "Elixir" has saved me from an early jeath I continue now in the enjoyment of most ex-cellent health H. N. SPERRY,

Sworn and subscribed this 6th day of June, 1857.

For Burning the Crystal Oil, Combining Economy and Safety. Patent Rights for States and Counties for Sale.

THIS important invention for producing the cheapest light in the world is now perfected and offered to the public. Numberiess other attempts have been made to produce a cheap light, but were attended with such inherent objections as to destroy their utility and adoption. But the Crystal Oil Lamp, while it is the cheapest, is both safe and agreeable in every position making a clear, while and brilliant flame—entirely fre from smoke or odor. There is no danger from explosion, but is perfectly safe under all circumstances. The oil can be used in any place without fear of soding the nicest garments. The lamps are nimply arranged and perfectly controlable by the children and domestics, and so constructed that the light can be varied in a moment from that of the lamb transfer of the la moment from that of one to eighteen or twenty ordi-nary lamps. While it is free from the disagreeable smell arising from the Kerosene and the danger at-tending the use of the burning fluid, it is found upon

As much Light for ONE CENT as Kerosene will for THREE CENTS, or Burning Fluid will THE undersigned would inform their friends and for SIX CENTS. Thus saving five sixths of the entire amount now ex-

pended, or the price of the lamp in about a month. They are adapted to all situations, making the cheapest and most desirable light for every place—the largest halls or churches as well as private dwellings. The patent on this lamp for the different States and counses throughout the Union, with the exclusive sale of the Crystal Oil, is now offered to the public, presenting a rare opportunity for merchants to secure for them-selves the monopoly of a trade entirely free from oppo-sation. Facilities are completed for the manufacture of the lampe in such quantities that they will be furnished to the purchasers of rights in any style, at such a cost as will yield an almost incredulous profit. These a cost as win yield an almost incredutions profil. These rights will be closed off immediately, and the lamps and oil delivered as soon as desired. As no lamps or oil will be sold to any but purchasers of rights, all let ters making the request will not be noticed. Communications addressed to the "Crystal Oil Lamp Co." No. 5 Merchants Row, will be promptly attended to.
